ORIGINAL AUDIO SOLUTIONS - SINCE 1982

## THE HIGHLINE SERIES

The Highline series from SteinMusic is specifically designed for natural music reproduction, with a focus on the authentic presentation of sound details and music dynamics. Using horn speakers and specially developed technologies like the SteinMusic Maestro lacquer treatment, the series offers a uniquely pure and vibrant sound experience.

The modular system allows for flexible adaptation to individual listening needs and room conditions. The Highline series from SteinMusic not only provides impressive acoustic performance but also enables the expression of individual aesthetic preferences. Both the horns and the front of the speakers can be customized in color.

The Highline series includes various models: Highline Bobby S, Highline Bobby M, and Highline Bobby L, which come in different versions such as Standard, Highline, and Ultimate. Each version offers specific features to meet different listeners requirements and preferences.
